# R12.x Extend Oracle Applications: OA Framework Personalizations

**Duration:** 2 Days

**What you will learn**

This course will be applicable for customers who have implemented Oracle E-Business Suite Release 12 or Oracle E-Business Suite 12.1.

Personalization is the ability within an E-Business Suite instance to make changes to the look and behavior of OA Framework-based pages without programming. And, personalizations are likely to survive patches and upgrades, increasing their utility. This course will systematically walk you through the myriad of personalization options, starting with simple examples and increasing in complexity from there.
Learn To:

Personalize a configurable page
Implement stored user queries
Create custom look and feel definitions
Personalize an OA Framework page

**Audience**
